

Flip Head

700MOFLP_, 700MO2FLP_ 1.0

HEADS-LOW VOLTAGE

GENERAL PRODUCT INFORMATION:

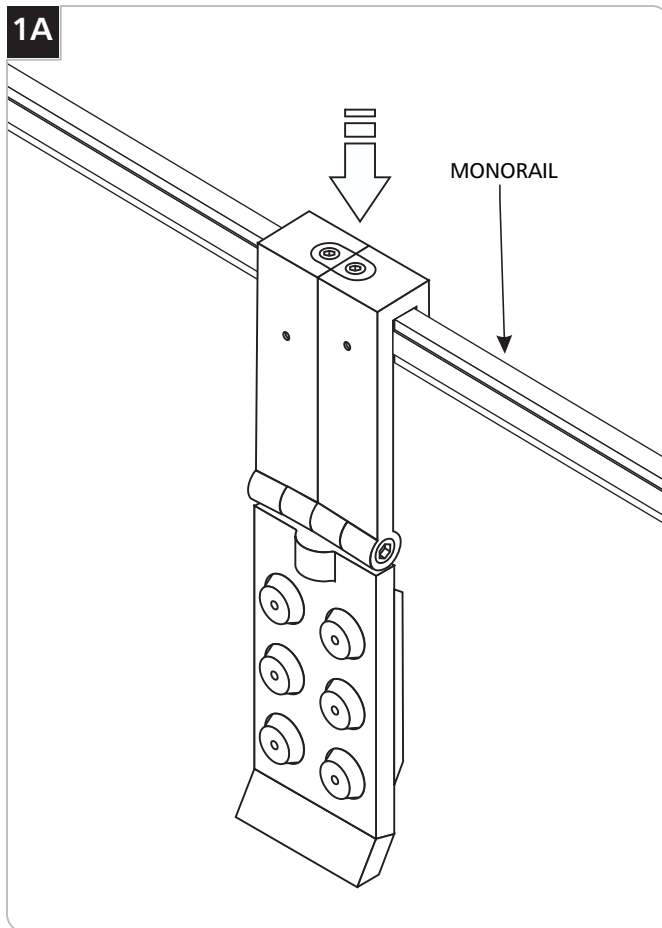

This product is suitable for indoor dry locations only.

This product should be used with Tech Lighting MonoRail and Two-Circuit MonoRail systems only.

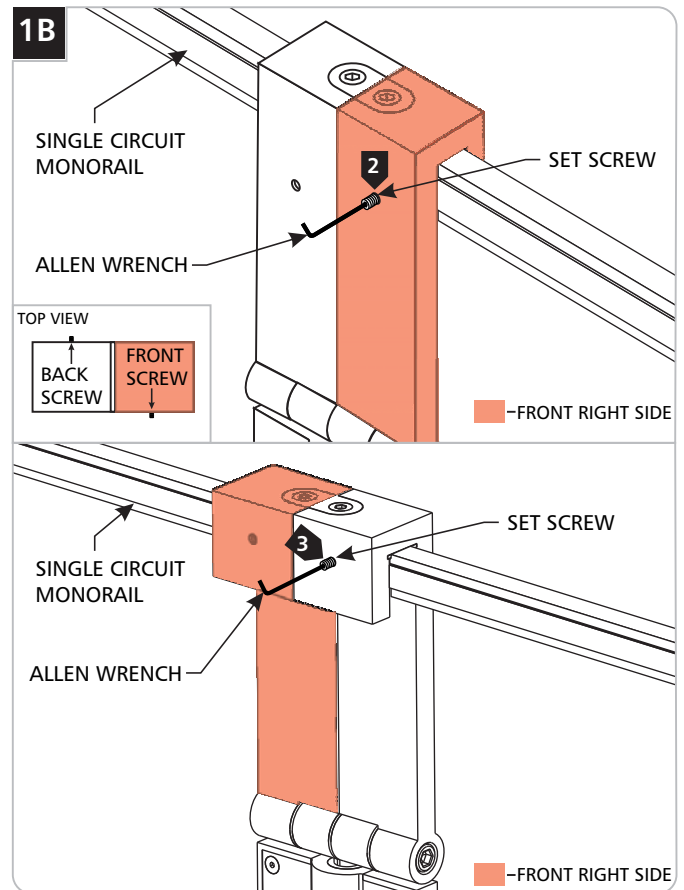

Installing the Fixture

- 1 Install the fixture onto the MonoRail / Two-Circuit MonoRail at the desired location.

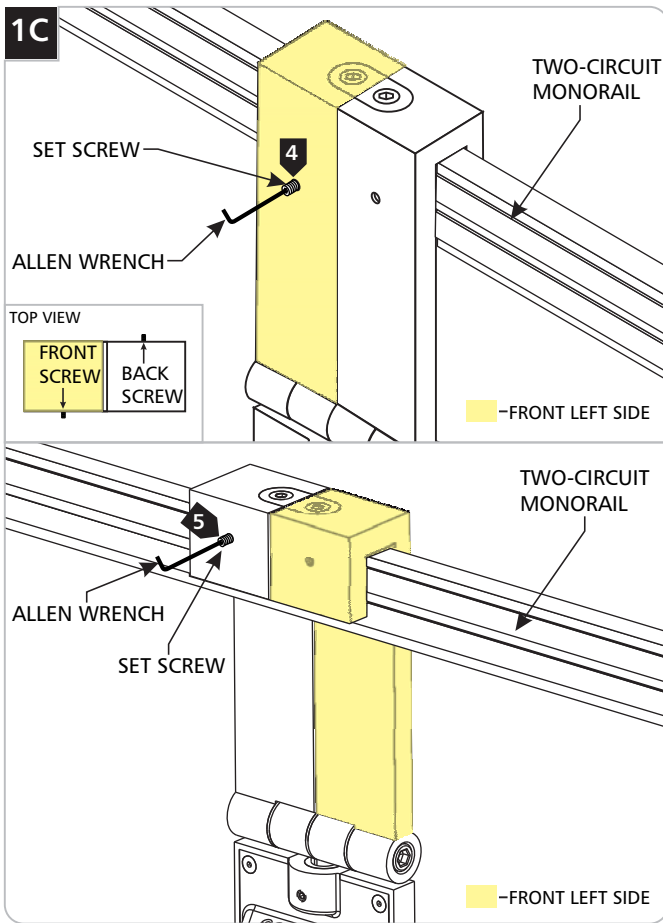

Single Circuit MonoRail Installation - Section 1B
Two-Circuit MonoRail Installation - Section 1C

- 2 On the **FRONT** of the fixture, install a set screw into the right side (upper) set screw hole and tighten firmly with the provided Allen wrench.
- 3 On the **BACK** of the fixture, install a set screw into the back right side (opposing side from the front) set screw hole and tighten firmly with the provided Allen wrench.

NOTE: Ensure that the set screws are making contact to MonoRail or else the fixture may not work properly.

SKIP TO SECTION 2 - Fixture Adjustability

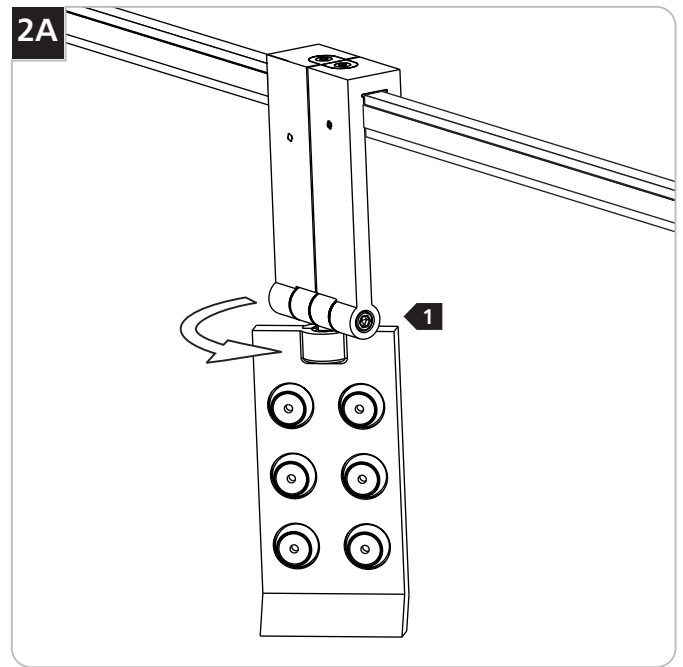

4 On the **FRONT** of the fixture, install a set screw into the left side (lower) set screw hole and tighten firmly with the provided Allen wrench.

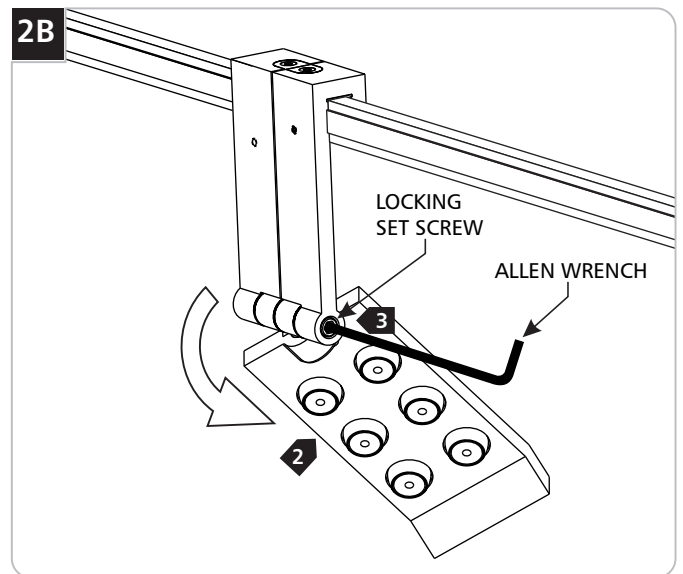

5 On the **BACK** of the fixture, install a set screw into the left side (opposing side from the front) set screw hole and tighten firmly with the provided Allen wrench.

NOTE: Ensure that the set screws are making contact to MonoRail or else the fixture may not work properly.

Fixture Adjustability

1 Rotate the bottom portion to the desired position.

2 Tilt the fixture to the desired position.

3 If necessary, lock the tilt position by tightening the set screw on the fixture hinge with the provided Allen wrench.
