

LOW-VOLTAGE PENDANTS

Van Buren Pendant

DESCRIPTION

Acorn-shaped Holophane® prismatic glass diffuses light throughout the pendant to reduce glare and enhance visual comfort. Directs majority of light downward. Also allows specifically controlled amount of light to pass through sides, increasing light levels in the space and reducing contrast between task and general lighting. Includes low-voltage, 50 watt halogen bi-pin lamp or 6 watt replaceable LED module and six feet of field-cutttable suspension cable.

INSTALLATION

Socket terminates with FreeJack male connector, which may be installed into a system connector. Elements ordered with a system prefix include a connector for that system.

WEIGHT

1.75lb / 0.79kg ±

clear
